

A Story Structure Graph

A Model of Narrative

(Drama = To Do)

Remember: This is the model no matter how private or public, small or large the action, for beat, scene, sequence, act, whole.

An Ending:
measurable in value,
material and/or non-material

The Gap
The difference between the protagonist's anticipations and results through conflict, creating surprise, then insight, demonstrating deep character and hidden world, expressing the artist's feelings and vision, followed by a new story direction.
